

Dear Friends in Christ:

As you are aware, due to the obsolescence of the software used to manage the former Christ Lutheran Website, www.welcome2clc.org, we have, over several months, been creating a new Church Website.

That site: www.welcome2clc.com, is hosted on and managed through www.Weebly.com, an entirely Web-based site creation *and* hosting service that can be managed via login on most any computer and web browser with no special software. (Several functions, however, work better when the Google Chrome browser is used, along with a Gmail login email address.) The former www.welcome2clc.org address now functions ONLY to forward visitors to the new www.welcome2clc.com address. You may explore this new site on both computer and smartphone.

We need CLC members who can help to maintain and update content on specific sections of this site, and at least one (preferably two) person to work toward becoming prepared to step in as the main editor of the site. Jane is already using this new system to post our Bulletins and Newsletters to the site; Darrin and I are using it to post the audio of Sunday Worship. The addition of special interest Blogs to our site could allow more interaction with the many members and visitors who use computers, but are not on Facebook.

If you would be willing to spend some time learning this, educational videos are available and listed below. In addition, you could start your own FREE Weebly site by going to www.weebly.com. This would provide the chance to practice on your own time. While some of the features on the PRO version are not available on free accounts, setting up a personal site and mastering the FREE account features should provide 90% of all you need to know, with the rest being rather intuitive.

Some additional training video, Q&A, and live web sessions might be helpful for those who are interested. For a group, this would work best after our new high speed connection is installed, as it would support several persons using the Internet at once. If you are interested or know others who would be, please let me know, along with your preference for a time. Perhaps few such meetings would be needed, and some individual work after Church could help.

We are all busy in our own ways, so, I suggest that those interested start by watching one or more of the videos below; creating your own FREE Weebly site by going to www.weebly.com, perhaps some pages with text headings for family vacation photos, a blog page, etc., just to “get the drift.”
